EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Kastenbaum on 11/30/05.

The application has been amended as follows:

In claim 1:

Lines 8-9, "and engaging in a region of the respective winding shaft end, for automatic alignment of the winding shaft (6)," has been deleted;

Line 12, "for movable mounting" has been changed to

- - mounted for movement - - ;

line 14, after "end, " , - - the spring means engaging a respective movable bearing for automatic alignment of the winding shaft (6), - - has been inserted;

line 15, "a", third occurrence, has been replaced with - -respective ends of the - -.

The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or suggest the blind structure as recited including the limitation of the "pulling direction" and the guide member being "arrangeable" (adapted to be) stationary (fixed) when mounted to the vehicle. The Richter et al device renders the cover removable, i.e. not stationary. Any inquiry concerning this communication or
